

## STUDENT E-MAIL POLICY

Effective July 1, 2004, you must have a valid uab.edu e-mail address in order to register for classes. To get a UAB e-mail address a BlazerID is required. To obtain a BlazerID go online at [www.uab.edu/blazerid](http://www.uab.edu/blazerid). To comply with the policy, you must have a valid, current, and reliable electronic mailbox. It is recommended that you check e-mail for official UAB Communications at least once a day if possible. If there is a change in the e-mail address to which your uab.edu e-mail is directed, you should make changes in the UAB e-mail registering system to continue to receive UAB communications. UAB provides a number of campus computer labs where you can access email. For a complete list of places on campus go online at [www.uab.edu/it/labs.php](http://www.uab.edu/it/labs.php).

## UAB E-Mail ADDRESS

If you are using a yahoo, hotmail, rediffmail, or some other email server other than a UAB email address, often you may not receive your ISSS Newsletter. We highly encourage you to update your address with the ISSS at [ISSS@uab.edu](mailto:ISSS@uab.edu). If you have a UAB email address it will receive mail much more efficiently.
